INTRODUCTION

This list of documents derives from IDRC-supported projects administered from its Asia Regional Office (ASRO). This is not a complete bibliography in that only documents deposited in the ASRO Library are listed.

Because of copyright restrictions, the ASRO Library is not able to supply copies of the titles listed. However, every effort has been made to ensure that publishers' addresses are given, so that users of this list should have no difficulty in identifying and obtaining required items direct from the sources. The publishers index is arranged by the second element of the imprint shown in the entry i.e. by the name of the publisher, not necessarily its sponsoring institution. Where there is no publisher in the imprint, the address of the corporate author is given in the publishers index.

This list is arranged first by the division of the IDRC responsible for the administration of the project. This is followed by the title of the project and its budget code. Under each project title are listed alphabetically by country and then by author, the documents published.

Examples:
