

# CRVS publications and resource catalogue

## USING THIS CATALOGUE

This catalogue is designed to help you easily identify, view, and share relevant resources published by the Centre of Excellence. It offers access to our videos, blogs and articles, publications, and event proceedings under five key themes:

**1**

### Why CRVS systems matter:

The case for investing in and strengthening CRVS systems

**2**

### Supporting gender equality:

Strengthening CRVS systems for equal access to rights and protections for all

**3**

### Putting people first:

Overcoming barriers to civil registration

**4**

### Promoting good governance:

Leveraging data for inclusive development

**5**

### Supporting CRVS system resilience:

Ensuring CRVS systems function under stress to protect populations in conflict, emergency, and fragile settings

## OTHER GATEWAYS TO CRVS RESOURCES

This catalogue focuses on content created and/or published by the Centre of Excellence, but we also facilitate access to information from other organizations and experts via our online library and directory.

### Online resource library

Search more than 300 curated resources related to CRVS systems, including research, tools, publications, online courses, and a glossary of terms and definitions.

► [Go to library](#)

### Directory of Experts

Connect with vetted experts from across the global community who can support initiatives to develop, strengthen, and scale-up CRVS systems.

► [Go to directory](#)

## ABOUT US

The Centre of Excellence for Civil Registration and Vital Statistics (CRVS) Systems is a global knowledge hub. We collaborate with organizations and experts to broker access to information and expertise. This includes global standards, tools, research evidence, and good practice.

The Centre is housed at the International Development Research Centre (IDRC) and funded by Global Affairs Canada and IDRC. We were established in 2015 as a global public good under the framework of the Global Financing Facility. Our work is part of the Government of Canada's investment in improving reproductive, maternal, newborn, child, and adolescent health and nutrition (RMNCAH-N) outcomes.
