# PREFACE

This computer-prepared list of serials held in the IDRC Library is a revision of the earlier list of 1972, and replaces it. *The old edition should now be discarded.* The new list includes over 3,000 titles of journals, annuals, newspapers, and other continuations.

In Part I the serials are arranged alphabetically by title. We have followed the UNESCO - UNISIST Guidelines for ISDS (International Serials Data System), SC/WS/538, Paris, 1973, in choosing the form of the title to be used. Thus all titles are transcribed as they appear on the title pages of the publications, e.g. Journal of the Canadian Dietetic Association, ADB Quarterly Newsletter, Scientific American. Periodicals with generic titles, such as "Annual Report", "Bulletin", "Proceedings", have the corporate author appended to the title, e.g. Annual Report / Institute of Commonwealth Studies. Here we have deviated slightly from the UNISIST Guidelines in that we have separated the generic title from the corporate body by "space slash space" ( / ) instead of "space dash space" ( - ). Instead we have used the dash to separate various language versions of titles, e.g. Bank of Canada Review - Revue de la Banque du Canada.

Such serials titles are rotated so that each in turn appears in the first position. All versions of the title appear at each entry. When the serial is shelved under a version of the title that does not appear first in the entry, that version is preceded by an asterisk (\*), e.g. Bank of Canada Review - Revue de la Banque du Canada but: Revue de la Banque du Canada - \*Bank of Canada Review. The serial is shelved at Bank of Canada Review, not Revue de la Banque du Canada.

For subscriptions that are not in the Head Office Library, the location is indicated in parentheses immediately following the title, e.g. Science (ASRO). A list of these locations may be found on page xi.

When the periodical is the publication of an institution or association, the corporate name should appear on the line below the title. The publisher's name, identified by two leading asterisks, follows, e.g. \*\*Allen Press. Our holdings (how much the Centre Library retains) are indicated in the last line of the entry, e.g.

- 1) 1971- ; V22(No.1)-  
Our subscription began with volume 22,  
we are still receiving the journal, and  
we intend to keep it indefinitely.
- 2) \*1971-73; V22-24\*  
Our subscription began with volume 22  
and ended with volume 24, but the three  
volumes that we did receive, we intend  
to keep indefinitely.

- 3) Current 5 years only  
Our subscription continues, but issues received will be retained for a definite period only, in this case five years.

Part II of the publication is a subject index. The subject headings are taken from the OECD Macrothesaurus with additions and changes to meet the needs of our Library users.

Other periodicals listings that are available in the Library are:

- 1) Corporate Author List (This is a list of corporate entities followed by the titles they publish)
- 2) Listings by Country of Publication
- 3) Listings of Regional Offices' Subscriptions

We hope to publish the IDRC List of Serials annually to reflect changes in subscriptions and holdings.

The library offers a number of services to those staff members who wish to make use of the wealth of information that is published in the journal literature. Photocopies of the contents pages of the latest issues of journals we receive are sent to Centre staff requesting them, as a current awareness service. While scanning journals received for items to be added to our data base, the Library staff collects articles for Centre staff members whose requirements they know. The latest issues of journals are retained in the Library so that they can be consulted there, and so that articles required by Centre staff can be photocopied for them. Though current issues of periodicals are not circulated, when new issues arrive the older issues may be borrowed, or circulated on a routine basis to those who have requested them.

A number of indexing and abstracting periodicals, as well as on-line access to several commercial data bases, provide subject access to the world's serial literature. Photocopies of articles

---

/ Macrothesaurus, a Basic List of Economic and Social Development Terms, Paris, OECD, 1972.

from journals not in our collection can be obtained from other libraries.

Through CAN/SDI service it is possible for staff members to have their interest profiles matched with commercially available data bases and to receive personalized bibliographies regularly.

These services are intended as a supplement to, and not a substitute for, regular visits to the Library. Staff members stationed outside Head Office can be provided with most of these services on request.

12 August 1975

## PREFACE

La présente liste informatisée des périodiques en fonds à la bibliothèque du CRDI est une liste révisée pour remplacer celle de 1972 *qui doit être jetée*. Cette nouvelle liste comprend plus de 3,000 titres en périodiques, publications annuelles, journaux et autres suites.

En 1<sup>ère</sup> Partie, la classification des périodiques est établie par titre, en ordre alphabétique. Cette méthode est celle préconisée par l'UNESCO - UNISIST Guidelines for ISDS (International Serials Data System), SC/WS/538, Paris, 1973. Ainsi, les titres sont transcrits au complet tels qu'ils apparaissent sur la page couverture des publications, par exemple, Journal of the Canadian Dietetic Association, ADB Quarterly Newsletter, Scientific American. Les titres génériques comme "Rapport annuel", "Bulletin", "Compte-rendus" s'accompagnent du nom de l'organisme de provenance (collectivité-auteur), ex: Annual Report / Institute of Commonwealth Studies. En ce qui concerne le titre générique et la collectivité-auteur, nous avons dévié légèrement de la méthode UNISIST en séparant ces deux mots par "espace oblique espace" ( / ) plutôt que "espace tiret espace" ( - ). Le tiret a été réservé à l'espacement des titres des séries traduits en plusieurs langues, exemple, Bank of Canada Review - Revue de la Banque du Canada.

Un système de rotation est appliqué à ces différents titres de sorte qu'ils viennent en tête de liste à tour de rôle, tout en étant suivis des autres versions dans chaque entrée. Lorsque les suites sont classées sous une version du titre qui n'apparaît pas en première place dans l'entrée, celui-ci est précédé d'un astérisque (\*), e.g. Bank of Canada Review - Revue de la Banque du Canada mais Revue de la Banque du Canada - \*Bank of Canada Review. Les suites sont classées Bank of Canada Review, non pas Revue de la Banque du Canada.

En ce qui concerne les ouvrages qu'on ne peut trouver à la bibliothèque du Centre, la source d'approvisionnement est mentionnée entre parenthèses, tout de suite après le titre, ex: Science (ASRO). La liste de ces sources d'approvisionnement se trouve en page xi.

Dans les cas où l'auteur d'une publication est un organisme ou une association, son nom doit apparaître en-dessous du titre. Vient ensuite le nom de l'éditeur, toujours précédé de deux astérisques, ex, \*\*Allen Press. Le fonds de livres (nombre de numéros conservés en bibliothèque) est mentionné en dernière ligne de l'entrée, ex:

- 1) 1971- ; V22(no.1)-  
Cette série commence avec le volume 22;  
nous recevons régulièrement cette publication,  
et nous avons l'intention de continuer.
- 2) \*1971-73; V22-24\*  
Cette série commence par le volume 22 et  
se termine avec le 24<sup>ème</sup> volume; ces trois  
volumes seront conservés en bibliothèque.

- 3) Cinq dernières années seulement  
L'abonnement est maintenu mais les numéros publiés ne seront gardés que pour une période de cinq ans.

En 2<sup>ième</sup> Partie, la classification est établie par sujet. Les vedettes-matières, composées d'après le Macrothesaurus<sup>7</sup> de l'OCDE, comportent les mentions et détails exigés par les besoins des usagers.

La bibliothèque tient aussi à la disposition des lecteurs, d'autres formes de classification, telles que:

- 1) Liste par collectivité-auteur: (Cette liste donne le nom des collectivités-auteurs suivi du titre de la publication)
- 2) Liste par pays de provenance
- 3) Liste des abonnements des bureaux régionaux

La bibliothèque espère publier chaque année une liste à jour des périodiques.

La bibliothèque offre divers services au personnel désireux de profiter de cette importante source d'information que représente la documentation journalistique. Une photocopie du sommaire des derniers numéros des revues reçues à la bibliothèque est expédiée sur demande. En explorant les périodiques dans leurs recherches d'informations pour alimenter la banque des données, le personnel de la bibliothèque conserve les articles susceptibles d'intéresser ceux des membres du personnel dont il connaît la nature du travail. Les derniers tirages sont conservés en rayon pour consultation sur place ou pour photocopie d'articles sur demande d'un lecteur. Les derniers numéros des périodiques ne sont jamais prêtés, mais les anciens tirages peuvent l'être, au fur et à mesure de leur remplacement par les nouvelles éditions; ils peuvent même être distribués régulièrement à ceux qui en ont fait la demande.

Pour connaître les sujets parus dans les suites du monde entier,

---

<sup>7</sup> Macrothesaurus, Liste des descripteurs relatifs au développement économique et social, Paris, OCDE, 1972.

de même que pour avoir un accès direct à plusieurs bases de données commerciales, il existe un certain nombre de répertoriages et d'analyses de publications. Ainsi, il est possible d'obtenir d'autres bibliothèques la photocopie d'articles de publications non-comprises dans la collection du Centre.

Quant au service CAN/SDI, il permet de faire coïncider le profil de la sphère d'activité de l'utilisateur avec les bases de données existant dans le commerce, assurant ainsi le lecteur de la réception régulière de bibliographies faites sur mesure.

Tous les services mentionnés plus haut ne remplacent pas, bien sûr, les visites régulières à la bibliothèque. Ce sont des compléments qui sont étendus, sur demande, au personnel résidant à l'étranger.

le 12 août 1975

## PROLOGO

Esta lista de series, preparada por computador, se encuentra en la biblioteca del CIID y representa una revisión de la anterior de 1972 a la que reemplaza. La nueva lista contiene más de 3,000 títulos de periódicos, anales, diarios y otras publicaciones.

En la parte I<sup>a</sup>, las series son ordenadas alfabéticamente según los títulos. Hemos seguido el ejemplo del UNESCO - UNISIST Guidelines for ISDS (International Serials Data System), (Directivos para ISDS - Sistema Internacional para Series de datos), SC/WS/538, París, 1973, en cuanto a la selección de la forma y título a utilizar. De esta manera todos los títulos han sido transcritos como aparecen en las páginas de la publicaciones; p.e.: Journal of the Canadian Dietetic Association, ADB Quarterly Newsletter, Scientific American. Periódicos con títulos genéricos, como "Informe anual", "Boletín", "Procedimientos", tienen añadido al título el nombre de la Corporación: p.e. Annual Report / Institute of Commonwealth Studies. Aquí nos hemos desviado ligeramente de las Normas UNISIST, dado que hemos separado el título genérico del cuerpo global mediante el "espacio barra oblicua espacio" ( / ), en vez de "espacio guión espacio" ( - ). Más bien hemos utilizado el guión para separar versiones de títulos en varios idiomas, por ejemplo, Bank of Canada Review - Revue de la Banque du Canada.

Dichos títulos de serie se permutan, de forma que aparezcan unas veces en primer lugar. Todas sus versiones del título aparecen en cada ficha. Cuando se archiva una serie bajo la versión del título que no aparece en primer lugar en la ficha, se coloca un asterisco (\*) delante de dicha versión, por ejemplo, si en vez de Bank of Canada Review - Revue de la Banque du Canada se hace Revue de la Banque du Canada - \*Bank of Canada Review. En este caso se archiva como Bank of Canada Review y no como Revue de la Banque du Canada.

En cuanto a abonos de periódicos que no se encuentran en la biblioteca de la sede principal, la localidad se menciona en paréntesis inmediatamente después del título, p.e.: Science (ASRO). La lista de esas localidades se encuentra en página xi.

Cuando el periódico es publicado por una institución o asociación, su nombre debe aparecer en la línea debajo del título. Sigue el nombre del editor, identificado por dos asteriscos delanteros, p.e.: \*\*Allen Press. La última línea de la anotación indica el período durante el cual la biblioteca central espera guardar la publicación, p.e.:

- 1) 1971- ; V22(No.1)-  
Nuestro abono empezó con el Volumen Numero 22;  
el abono está todavía vigente; intentamos guardarlo indefinidamente.
- 2) \*1971-73; V22-24\*  
Nuestro abono empezó con el numero 22 y se terminó con el numero 24; intentamos guardar los tres numeros recibidos.

- 3) Solamente los 5 años corrientes  
Nuestro abono está vigente; guardaremos los  
numeros recibidos solamente para un período  
definido; en este caso - cinco años.

La parte segunda de la publicación es una lista de sujetos. Los títulos de los sujetos son copiados del OECD Macrothesaurus<sup>/</sup> con las adiciones y cambios necesarios para encontrar los requerimientos de las personas que se sirven de nuestra biblioteca.

Otras listas de periódicos disponible en la biblioteca son:

- 1) Corporate Author List (Lista de corporaciones,  
seguidas de los títulos publicados por ellas)
- 2) Lista de países en que se publican los títulos
- 3) Lista de abonos de las oficinas regionales

Contamos publicar anualmente la lista de series del CIID para reflejar los cambios en abonos y en los períodos durante los cuales guardaremos los artículos.

La biblioteca ofrece un cierto número de servicios a aquellos miembros de su personal que quieren servirse de la abundancia de información publicada en la literatura diaria. Se envían fotocopias del contenido de las páginas de los últimos números de los diarios a petición del personal del Centro. En examinando diarios conteniendo artículos a añadir a nuestros datos de base, el personal de nuestra biblioteca recoge los artículos para los miembros del Centro de quienes conocen los requerimientos. Los últimos números de diarios son guardados en la biblioteca de manera que pueden ser consultados y que el personal de la biblioteca pueda fotocopiar los artículos. Los últimos números de estos diarios no son disponibles a los abonados. Sin embargo, a la llegada de los últimos números los miembros pueden prestar los números anteriores, o estos pueden circular como de costumbre.

Un número de periódicos indicativos e de abstracción, así como el

---

<sup>/</sup> Macrothesaurus, una lista básica de términos de desarrollo económico y social, Paris, OECD, 1972.

acceso a la línea de varios datos de base comerciales, proveen acceso por sujeto a las revistas periódicas mundiales. Fotocopias de artículos en diarios que no se encuentran en nuestra colección pueden ser obtenidas de otras bibliotecas.

El Servicio CAN/SDI permite a los miembros de emparejar sus "profiles de interes" con bases de datos disponibles en el comercio, y recibir regularmente las bibliografías personalizadas.

Se intentan esos servicios como suplemento a las visitas regulares a la biblioteca, y no como substituto. Miembros de nuestro personal estacionados fuera de la oficina principal pueden procurarse la mayoría de esos servicios solicitándoles.
