³ Useful in the KPI framework is defined as “key actors perceive value in the activity for application in their work”. To date, 29 post-event surveys have been administered which specifically ask participants how they rate the usefulness of the engagement for their work. Other event surveys have asked whether the event met its objectives thus were not included in the calculation.

⁴ This figure is based on those who responded to the survey question.

⁵ 6 of the 10 peer learning events included a post-event question about the usefulness of the learning event.
