PREFACE

The following list is a new and expanded version of the first edition of the Acronyms List, published on May 28, 1975. It, too, was compiled as an aid in identifying the complete names of organizations which are frequently found in their acronym form in the Centre's correspondence and documentation.

The format was produced by the Integrated Set of Information Systems (ISIS), in use in the Centre's library. The first line indicates the actual acronym; a single asterisk following refers to an alternate version in the other official languages of the Centre: English, French, Spanish. The expansion is given next, followed by the city, when known, where the headquarters of the organization are located. A double asterisk following denotes the organization's affiliation.

This list will be updated by means of an on-line computer file as additional information, changes or deletions are drawn to our attention. A third edition will be published when the number of changes warrants it. Any comments relating to the format and contents of this publication will be gratefully received.

PREFACE

La présente liste est une version revue et élargie de celle qui a été publiée le 28 mars 1975. Le but de cette compilation est de faciliter l'identification des organismes dont le sigle apparaît souvent seul dans la correspondance et la documentation du Centre.

L'agencement de ce répertoire a été confié à l'ISIS, ensemble de systèmes intégrés d'information, actuellement en usage à la bibliothèque du Centre. La première ligne donne le sigle; un astérisque indique l'existence d'une version dans l'une des trois langues officielles au Centre: français, anglais, espagnol. Ensuite vient le nom en entier, suivi lorsqu'il est connu, du nom de la ville où l'organisme a son siège social. Le double astérisque indique l'affiliation de l'organisation.

La mise à jour de cette liste sera effectuée à l'aide d'un fichier informatisé où seront enregistrées toutes informations complémentaires, modifications ou annulations qui nous auront été communiquées. L'importance du volume des amendements déterminera la date de la troisième édition. Tout commentaire sur le plan ou le contenu de cette liste sera vivement apprécié.

PREFACIO

A continuación se presenta una versión nueva y ampliada de la Lista de Siglas, cuya primera edición publicamos el 28 de mayo de 1975. Con ello deseamos ayudar a identificar los títulos completos de las organizaciones cuyas siglas aparecen con cierta frecuencia en la correspondencia y documentos del Centro.

El formato fue producido por el Conjunto Integrado de Sistemas de Información (ISIS), que se utiliza en la biblioteca del Centro. En seguida aparece el nombre completo, y la ciudad, cuando se posee información, donde está ubicada la oficina principal de la organización. Un asterisco doble indica la afiliación de la organización.

Con la ayuda de un fichero de información conectado a una computadora, la lista será revisada a medida que recibamos notificación de cambios o información adicional. Cuando el número de cambios lo justifique, publicaremos una nueva edición. Agradeceríamos cualquier comentario con relación al formato y el contenido de esta publicación.
